

## Journey Home Foundation

The Journey Home Foundation (JDF) is a nonprofit organization dedicated to preventing Nepali girls and women from being kidnapped for the sex trade and rescuing those who have already suffered trauma from human trafficking. The foundation also provides education, job training, housing, and medical support for at-risk and rescued young women. We developed the organization's website with a compelling visual presentation, messaging that educated visitors on the vulnerability of Nepali women and JDF's programs and services, and a strong appeal for donations and sponsorships.
